

BEHAVIORAL ASSESSMENT AND PERSONALITY TESTING

FINANCIAL HEALTH

PERSONALITY TEST

EXECUTIVE VETTING

Our Behavioral Assessment and Personality Testing service utilizes the Insights model, which focuses on color-coded leadership styles to reveal key personality traits and strengths. We combine these insights with additional assessments to offer a comprehensive, well-rounded profile of each candidate. This layered approach helps you understand how a potential hire's behavioral tendencies and leadership style align with your team's dynamics, empowering you to make hiring decisions that support both cultural fit and organizational goals.
